What is Sustainable Tourism?

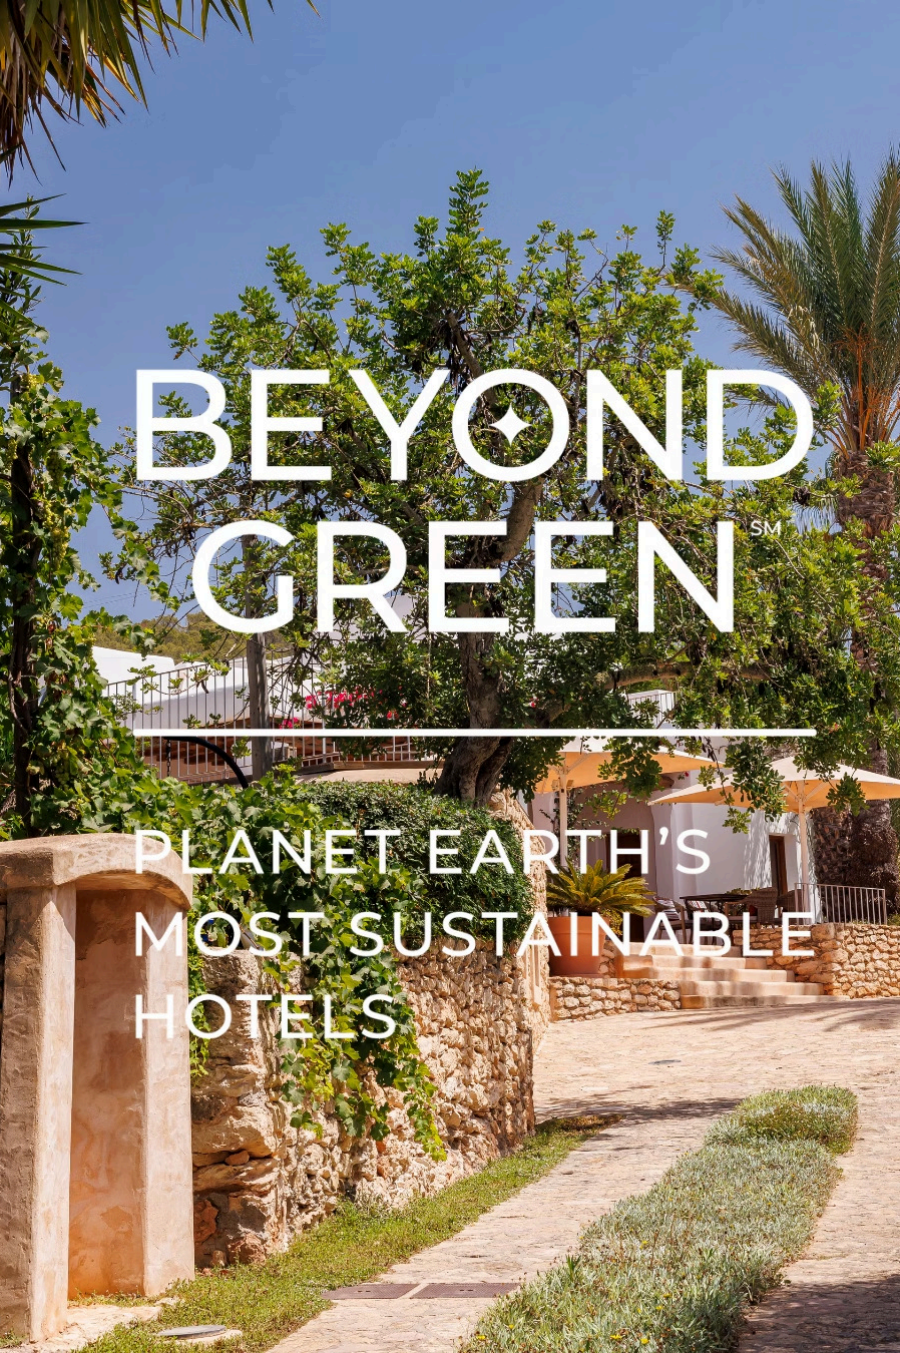

Can Lluc: Ambassador of Sustainable Tourism

Located in a peaceful valley 2.8 kilometers from San Rafael, Can Lluc offers a haven of peace.

Surrounded by forests of pine trees, carob trees and ancient olive groves, it faithfully reproduces the Mediterranean spirit.

Digital Nomads

We bet on digital nomads as temporary Ibizans who transform long stays into authentic immersion experiences. Becoming natural ambassadors of rural and sustainable Ibiza, getting to know the island firsthand beyond conventional tourist circuits.

Social Commitment

The commitment to the community is an essential part of our identity. We actively collaborate with various local entities such as the Colla de ball pagès, the Association of elderly people and the parish. We also promote local sports through our support for the Sant Rafael Football Club.

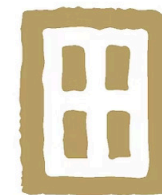

Ibiza Preservation

We collaborate with the Ibiza Preservation foundation in the protection of the native lizards *Podarcis pityusensis* that are in danger of extinction due to the invasion of horseshoe snakes coming from root balls or trunks of ornamental olive trees. Ibizan lizards, besides being a unique species and a cultural icon, have a pollinating function that contributes to the island's agriculture.
