

Ibiza, July 2020

Dear guest,

It has been a long wait, but we are back to celebrate life together, as we wished in our previous communication.

#YourIslandAnytime

Can Lluç has reopened its doors since July 1st, with all the anti-Covid guarantees, implemented to minimize the risk of contagion and with its full services so that you can enjoy the best experience in your holidays.

From Can Lluç we send you a message of encouragement and maximum care in the adoption of preventive measures, so that we do not have to confine ourselves again. Our motto is "Caution YES, fear NO".

If this year you are not very encouraged to travel, it is understandable. However, we would like to remain your reference hotel in Ibiza and we send you information about the implementation of anti Covid19 measures that we have implemented: your health and ours come first.

With regard to cleaning and disinfection protocols, and specifically with regard to prevention and minimisation of the risk of contagion we are following the recommendations of the ICTE (Institute for Quality Tourism in Spain).

Among other things, we have created a security committee and a contingency plan; we have adequately trained our staff for optimal customer service; we have adopted the recommended distance measures; we have replaced the breakfast buffet with an assisted buffet; we have introduced viricidal cleaning products recommended by the Spanish authorities, elements and signs with reminders ; the washing of towels and bed linen is done at 60 degrees or more; we follow the recommendations of the ICTE in housekeeping; we register the entry of visitors and suppliers; we carry out daily temperature checks on the staff.

All these measures and protocols have been adopted for the benefit of the safety of each and every one of us who live or visit Can Lluç, whether they are customers, suppliers or staff. To all these measures we must add the natural environment in which we are located and the total absence of crowds.

If you want to book in Can Lluç, check our website or contact us. You will find flexible rates adapted to this situation.
